Description :

PDF-09e07 | This book is an analysis of the most significant elements that compose the "Bond formula," such as names, binary oppositions and narrative patterns. It tackles Ian Fleming's novels as well as the 22 films of the Eon Productions series and follows the evolution of certain determining features (paradigms) from the text to the screen, to determine their function within the narration. This study reveals... *The Signs of James Bond: Semiotic Explorations in the World of 007*
